

PAYERS INCLUDED ON COMPAREMAINE

LAST UPDATED: FEBRUARY 15, 2022

OVERVIEW

The cost data on CompareMaine comes from the State of Maine's All-Payer Claims Database (APCD). For version 10.0, we reviewed over 16 million claims from 35 health insurance plans that covered health procedures provided in Maine from April 1, 2020 – March 31, 2021. CompareMaine does not include information on the uninsured. However, effective January 1, 2014, a provision in the Affordable Care Act addresses what some hospitals may charge individuals eligible for financial assistance for emergency and medically necessary care. At this time, these analyses do not include people with Medicare or Medicaid (MaineCare). After these claims were excluded, a total of 7,912,779 claims from 35 payers were analyzed.
